

Miller® DuraSeal Self Retracting Lifeline

Product description

The patent-pending Miller DuraSeal Self-Retracting Lifeline (SRL) is designed to perform in the harshest environments including onshore and offshore oil and gas, mining and petrochemical applications. The DuraSeal's sealed technology, reusable brake system, field replaceable lifeline and corrosion resistant materials keep the product in the field to lower cost of ownership.

FEATURES

- Prevents contaminants from entering the unit with highest industry rated sealed technology IP69K
- Built to last reusable brake design withstands multiple falls
- Quick, low cost repair with field replaceable lifeline
- Provide Easier Installation and Transport
- Reduces fatigue and increases productivity with units up to 30% lighter than competitive sealed units
- Enables, quicker easier installation and provides protection from rain
- Increase Service Life with New Spring Design
- Lower Owner Cost of Ownership with no Annual Factory Re-certification

Product service life is extended in the harshest environments with corrosion resistant components

APPLICATIONS

- Construction
- Oil & Gas
- Mining

Technical Information

Housing:	Cast Aluminum
Cable:	Stainless Steel
Weight	12 kg - 28 kg
Temperature :	-30°C to +50°C

Max. Capacity: 140 kg
Max. Working Length: 15 m - 40 m
Max. Total Arrest Distance: 1.1 m

Standards

EN 360
IEC 60529: International Protection Rating/Ingress
Protection Ratings - IP68, Protected from total ingress. Dust tight and protected against 1m immersion in water.
